Online Laboratory Safety Training Update

Over 500 people have already completed the Laboratory Safety Fundamentals training.

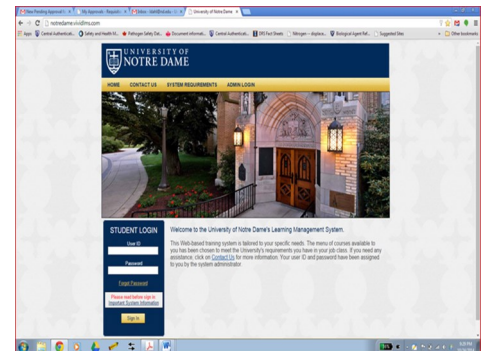

Online trainings that are currently available:

- > Laboratory Safety Fundamentals* (Includes Laser Safety)
- > Fire Extinguisher Training*
- > Biosafety and Biocontainment **
- > Bloodborne Pathogens (BBP)***

* **Required** annually by all personnel working in an ND lab.

** **Required** by personnel working in biosafety levels 1 and 2

*** **Required** by personnel working with BSL-2 agents and/or human blood, tissues, cells, etc.

- > Faculty, staff, post-docs and graduate students who have not received their login credentials for Vivid must complete the form at the following link: [Request to Add](#)
- > Requests for undergraduates must be submitted by the PI or designee using the following link: [Request to Add](#)
- > **If you submit the request and have not received your credentials within 24 business hours, please do the following:**
 - > Check spam or junk email. The email comes from Customerservice@vividlms.com
 - > If you forward your email, open your original ND account. Vivid emails do not forward.
 - > If you submitted an alias email "netid@nd.edu" but your primary is "yourname.2@nd.edu," resubmit the request with your primary email address. Vivid does not appear to acknowledge aliases.
- > For other classroom trainings check the [Monthly Training Calendar](#)
- > For other online courses check the [Risk Management and Safety website](#).

Need additional information:

RMS has created an [FAQ webpage](#) and [Online Training Guidance Document](#). This information is also available on the [Risk Management and Safety website](#).
