

Risk Management & Safety is excited to announce a new partner in Worker's Compensation medical care.

Memorial Hospitals "**MED POINT 24**" located at 6913 N. Main St. Granger, In. will be providing **initial** treatment for worker's compensation injuries when the Wellness Ctr. is closed.

The Wellness Ctr. hours are 7 am- 7 pm daily M-F and Saturdays from 8-12 am unless it's a home football Saturday. They are open Sundays during home football game weekends usually 1-5 pm.

Previously, the Emergency Room at SJRMC (Douglas Rd. location) was the medical provider when the Wellness Ctr. was closed. This location may still be used but only for emergencies.

For non emergency treatment or any treatment that would have been provided by the Wellness Ctr. (if they had been open), you will use **MED POINT 24.**

You should send the Supervisors Report to the Wellness Ctr. form with them to Medpoint. (This is the same form you use when they are treated at the ND Wellness Ctr. during open hours). There contact information is on our website as well as listed below. Remember this is only for times the **ND Wellness Ctr. is closed.**

All follow up care is to be scheduled at the ND Wellness Ctr. during their normal hours.
