### ONLINE LASER SAFETY TRAINING CHANGES

Starting January 16, 2017, a stand alone Laser Safety Training course for laser users is now available for use in [complyND](#). The course title is “RMS Laser Safety” and is required to be completed by all Class IIIB and IV users initially prior to beginning work with such lasers. It does not require annual recertification and is to be completed in addition to the introductory laser safety portion of the Lab Safety Fundamentals (Parts 1–3) Training. For users needing to complete this training, your supervisor or [department contact](#) can assign the required training.

Additionally, we are asking that any lab with a Class IIIB and IV lasers in it (whether in use or not) to please contact Andy Welding ([welding.1@nd.edu](mailto:welding.1@nd.edu)) and provide the following information:

- ◆ PI Name
- ◆ Room / Building
- ◆ Manufacturer of the Laser
- ◆ Model #
- ◆ Serial #
- ◆ Class (IIIB or IV)

Additional [complyND](#) resources:

- ◆ [Quick Reference Guide for Supervisors/PI's](#)
- ◆ [Video on Ad-Hoc Course Setup for Supervisors/PI's](#)
- ◆ [Supervisor Information](#)
- ◆ For additional assistance, please email the [complyND](#) team at [comply@nd.edu](mailto:comply@nd.edu)

All safety communications can be found at <http://riskmanagement.nd.edu/safety-alerts/>.
