

SAFETY NOTICE

Annual Emergency Shower & Eyewash Third Party Inspection

RISK MANAGEMENT & SAFETY

Date: January 2020
Category: Laboratory Emergency Equipment
RMS Contact: Eric Doland, edoland@nd.edu

Contact RMS:
Tel: 1-5037

IMPORTANT NOTICE

Starting after the 1st of the year, Niezgodski Plumbing will commence with conducting annual emergency shower and eyewash inspections. These inspections, which are performed annually, include physically testing each unit to ensure they are in safe operating condition.

The following buildings will be first on the inspection schedule with inspections lasting the next several weeks:

- ◆ Harper Hall
- ◆ Raclin-Carmichael
- ◆ Jordan Hall of Science
- ◆ Galvin
- ◆ Nieuwland Science Hall
- ◆ Stepan Chemistry
- ◆ McCourtney Hall
- ◆ Stinson-Remick Hall
- ◆ Fitzpatrick/Cushing Hall
- ◆ Multidisciplinary Research Building
- ◆ Radiation Research Building
- ◆ Riley Hall of Art & Design

If the timing of the inspection does not work for your lab or building, please feel free to notify the Niezgodski Representative conducting the inspections in your area to reschedule the inspection.

To estimate timing for when inspections will occur for those buildings not listed above, look at the inspection tag for each unit in your area to see when it was tested last year.

Please note: Monthly eyewash inspections by laboratory personnel are still required.

For any questions or concerns regarding the inspection process, please contact the office of Risk Management and Safety at 1-5037.

All safety communications can be found at <https://riskmanagement.nd.edu/communication/safety-communication/>.
